01.2023 - today
Love Does (Center for Ukrainian Refugees, Warsaw)
- Teach mathematics (grades 5-8)
- Teach computer science (grades 5-8, 9-11)
- Teach programming (grades 9-11)

About the results:
✓ Repeated educational material for grades 5-6, conducting independent works
✓ Learning how a computer works, google services, MS Word & Excel
✓ Learning how a website works, what it includes and needs to work, html tags, layout principles, etc.

Front-end developer. Charity project

09.2022 - today
EPAM Laboratory
- Work on Front-end part
- Work on the Scrum methodology
- Code rewiev of others developers

About the results:
✓ Completing tasks
✓ Reviewing pull requests
✓ Development project

Marketing Manager

10.2017 - 07.2020
SanWell - wholesale, distribution, import and export of sanitary products
- Stocked products for online store
- Planned and developed promotions
- Created content

About the results:
✓ Established better communication between departments
✓ Visual content passed my special selection, later the company used it to print its own catalogs
✓ Convinced the company's management that it is better to have a full-fledged photo-video studio and organized its work

Head of the retail warehouse department

05.2012 - 10.2017
SanWell - wholesale, distribution, import and export of sanitary products
- Ensured smooth operation of warehouse
- Warehouse accounting
- Team management, delegated tasks

About the results:
✓ Stopped a series of re-grading and shortages in the warehouse, brought the warehouse to 0 according to the results of inventory
